STARFISH RECOMMENDED TRAINING PUPPIES 5 MONTHS & UNDER: THE PUPPY PROFESSOR

THE PUPPY PROFESSOR | GLEN ELLYN
Amy Saletta, KPA CTP
the-puppy-professor.com | 630.853.9272

The Puppy Professor offers group classes and private training consultations for puppies of all ages, although our specialty is young, newly adopted puppies! We show fosters and adopters the positive way to shape a puppy's behavior as well as work with adopters to help a puppy settle in to their new home. We provide solutions for crate training, house training, proactive socialization, puppy nipping and more. All of our trainers are certified in force free methods.

Visit our website the-puppy-professor.com to learn more about virtual training options as well.

STARFISH RECOMMENDED TRAINING PUPPIES OVER 5 MONTHS & ADULT DOGS: A SOUND BEGINNING

A SOUND BEGINNING

www.asoundbeginningprogram.com | 630.776.8197

This unique training program was created specifically for the newly adopted dog and focuses on LIFE SKILLS that center on SOCIALIZATION and SELF-CONTROL while teaching the foundation of problem solving by PREVENTION, MANAGEMENT and TRAINING. Start building a positive relationship with your adopted dog, gain his trust, and help him successfully adjust to his new home

The main goal of A Sound Beginning Program is to reduce and eliminate the stress that normally is part of the transition period from shelter/rescue to living in a home. The result of taking the Path to Success classes is that a better relationship based on understanding both ends of the leash is established, which is the foundation for a lifetime of learning.

Rescue Tools

You've made a great choice in giving a dog a second chance at life. We want to make sure your dog is getting a good start. Below are tools to help you navigate this exciting time.

BLUE SKY PRAIRIE TEXTILES **SNIFF-IT**

Sniff-its are a portable diffuser for high quality essential oils. Diffusing Calm-a-Mile RTU from a Sniff-it promotes a balanced and calm attitude for your dog without direct contact. Successful used alone or in layering with other forms of sensory support (sound, Thundershirt etc.). Fits collars and harnesses.

2 HOUNDS DESIGN **FREEDOM HARNESS**

How A Harness Can Help Your Dog Behave Better

Harnesses are a great way to teach puppies and older dogs alike how to walk on a leash. Our comfortable, no-pull harnesses naturally teach dogs how to walk correctly and protect you both from harm, so you'll be able to take more walks. By releasing your dog's energy through walks, you'll prevent boredom, which often comes with barking, chewing, and destructive behaviors. Start walking your way to a well-behaved dog today!

Can be purchased online at www.2houndsdesign.com
or at local, privately-owned pet supply stores.
